Petros Filippou

Full Stack Developer | Solar Park SCADA Integration

filippou.petros.dev@gmail.com · +30 698 862 7133 · Thessaloniki, Greece
LinkedIn: Petros Filippou · GitHub: Filip · Portfolio

PROFILE

Full Stack Developer with 6+ years of experience building custom websites, e-commerce extensions and business integrations with Vue.js, WordPress, OpenCart and Moodle LMS. Since 2026, also working in the energy sector: commissioning solar park equipment, writing Lua logic for energy systems and connecting parks to DEDDIE SCADA. Looking for opportunities in Greece and across Europe.

PROFESSIONAL EXPERIENCE

Solar Park Installation & SCADA Integration May 2026 – Present
Balkan Constructions · Greece

- Install and commission Elseta WCC Lite units at photovoltaic parks.
- Connect solar parks to the DEDDIE (HEDNO) SCADA system for remote monitoring and control.
- Configure relays and dataloggers and set up Modbus communication with park equipment; test and troubleshoot data flow to the grid operator.
- Write Lua scripts and logic for the energy system, tailored to each park's requirements.

Co-Founder 2025 – Present
Offload Studio · Thessaloniki

- Co-founded a web development and design agency delivering modern, responsive websites, branding and visual design.

Full Stack Developer 2021 – 2024
CC-LIT SA · Thessaloniki

- Developed and deployed 7 full websites using WordPress, OpenCart and Moodle LMS, tailored to client requirements.
- Built custom OpenCart extensions to enhance e-commerce functionality and automate business operations.
- Maintained and supported ERP integrations, ensuring reliable data synchronization and uptime.
- Contributed to internal tools and customer dashboards in Vue.js, improving performance and usability.

Freelance Web & FiveM Developer 2019 – Present
Self-employed

- Built custom websites with WordPress, OpenCart and Vue.js for small businesses.
- Created and maintained FiveM scripts in Lua and JavaScript, including UIs and server-side logic.
